

MARK SCHEME for the May/June 2009 question paper
for the guidance of teachers

**0417 INFORMATION AND COMMUNICATION
TECHNOLOGY**

0417/01

Paper 1 (Written), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2009 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

- 1 **A** Magnetic stripe (1)
 B Magnetic ink characters (1)
 C Chip (1)
 D Optical marks (1)
 E Bar code (1) [5]

- 2 Graphics tablet (1)
 Touch screen (1) [2]

- 3 F (1)
 F (1)
 T (1)
 T (1)
 F (1) [5]

- 4 Desk top publishing → producing a school magazine (1)
 Measuring program → monitoring temperature in a science experiment (1)
 Spreadsheet → managing personal finance (1)
 Inference engine → suggesting medical diagnoses (1)
 Database → storing pupil records in a school (1) [5]

- 5 **(a)** Numeric (Integer) (1)

(b) Alphanumeric (1)

(c) Boolean (1)

(d) Date (1) [4]

6

Forward	80
Right	90
Forward	180
Right	90
Forward	70
Penup	
Forward	10
Pendown	
Right	90
Forward	80
(Left	90)

Pendown and Right 90 are interchangeable

1 mark for each pair of statements [5]

Page 3	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

- 7 (a)** Hybrid/tree (1) [1]
- (b)** Star (1)
Bus (1) [2]
- (c) (i)** A hub (1)
- (ii)** A switch (1)
- (iii)** A proxy server (1)
- (iv)** A bridge (1) [4]
- 8** F (1)
T (1)
T (1)
F (1) [4]
- 9** Real Time (1)
Batch (1)
Real Time (1)
Batch (1) [4]
- 10 (a)** 1 [1]
- (b)** A4 [1]
- (c)** Any cell in the range B2 to F5 [1]
- (d)** (=) D2*E2 [1]
- (e)** Fill down (1)
Copy and paste (1)
Dragging the fill handle down (1) [3]

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

- 11 (a)** Questionnaires (1)
Interviews (1)
Examination of documents (1)
Observation (1) [4]
- (b)** To detect typing errors/data entry errors/transcription errors [1]
- (c) Either:**
Visual verification (1)
Typed in data is visually compared with original data (1)
Or
Double entry (1)
Date is typed in twice and computer compares the two versions (1) [2 max]
- (d) Four from:**
Name
Title/gender
Customer number/id
Address
Post code
(Work/Mobile) phone number
(Home/Mobile) phone number
Email address
Car registration number(s) [4]
- (e) Four from:**
Button to close form
Button to first record/form
Button to end of file/new record
Button to previous record/form
Button to next record/form
Submit/continue button
Space to enter required record number
Search facility/engine
Button to go to sub forms [4]
- (f)** Field names (1)
Validation routines (1)
Field Lengths (1) [3]
- (g) Three from:**
Parallel running
Pilot running
Phased implementation
Direct changeover [3]
- (h)** The appropriateness of the solution (1)
Comparing the solution with the original task requirements (1)
Any improvements which can be made to the system (1) [3]

Page 5	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

- 12 (a) Two from:**
 Flight/pilot simulation/training
 Large scale chemical experiments
 Design of fairground rides
 Design of large buildings/bridges
 Traffic control
 Building fire simulation
 Car driving simulation
 Drug trials [2]
- (b) Three from:**
 Real thing may be too expensive to build
 Real thing requires too large a time scale
 Real thing would be too wasteful of materials
 Real thing is too vast a scale
 Real thing may occur too rarely
 Rate of change can be adjusted for human eye to detect
 Corrections can be made if mistakes in real thing/amendments are easier in a model [3]
- 13 Inference engine (1)**
 Interactive input screen (1)
 Knowledge base (1)
 Rules base (1) [4]
- 14 (a) RSI (1)**
 Headaches (1) [2]
- (b) Take regular breaks (1)**
 Put a screen filter in front of the monitor (1) [2]
- (c) Electrocution (1)**
 Fire (1) [2]
- (d) Don't overload electrical sockets (1)**
 Make sure there are no bare wires (1) [2]
- 15 Three from:**
 Keyboard/typing in data
 A bar code (reader)
 A magnetic stripe (reader)
 Touch screen
- Three from:**
 Scanning bar codes/swiping magnetic stripes/touch screen gives fast data entry/keying in data can be slow
 Scanning bar codes/swiping magnetic stripes/touch screen reduces errors/keying in data can lead to data errors
 Keyboards/touch screens are robust/bar codes can be flimsy
 Magnetic stripes are more robust than bar codes [6]

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

16 (a) Three from:

Reduced cost of wage bill
Computer readings are more accurate/human errors are reduced
Readings can be taken more frequently/continuously
Nurses can get tired and forget to take readings
Nurses are so busy they might not be able to take readings regularly
Nurses won't be exposed to contagious diseases
Automatic warnings can be generated
Graphs can be produced automatically
Nurses can be freed up to do other tasks

[3]

(b) Four from:

Sensors are used (to generate data)
Data are then sent to computer
Sensors read analogue data
Computers work with digital data only
Data needs to be converted so computers can process/understand data

[4]

17 Six from:

Advantages

Workers can use own office so documents do not get lost in transit/bulky documents/equipment do not have to be carried around
Company can call meeting at short notice
Employees can work from home
Company does not have to pay travelling expenses
Company does not have to pay hotel expenses
Company does not have to pay for conference room facilities
Travelling time is saved
Might be dangerous to fly/travel
Disabled people may find it difficult to travel

Disadvantages

Takes time to train employees
Difficult to call international meetings because of time differences
Initial cost of hardware
Equipment can break down
Strength of signal/bandwidth/lipsync can be a problem/connection can be lost/power cuts
Loss of personal/social contact
Takes time for workers to learn new technology
Can't sign documents

Max. 4 advantages/disadvantages

One mark available for reasoned conclusion

[6]

Page 7	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0417	01

18 Four from:

- Data more difficult to copy
- Extra layer of security with PIN number
- Even if stolen card cannot be used unless thief knows PIN number
- Larger amount of information can be stored
- Disabled people find it easier than signing
- Reduces disputes at checkouts over validity of signature/
- Saves time at checkouts
- Not affected by magnetic fields

[4]

19 Eight from:

Fax

Advantages

- Can be used as a legal document
- Documents can be very long

Disadvantages

- Cannot be certain if correct person has received it
- Very slow transmission rates
- Not very good quality
- Documents cannot be edited easily
- Cannot send multimedia files
- Won't be received if line is busy/receiving fax machine switched off/out of paper
- Wastes/expense of ink/paper

Email

Advantages

- Can be confident message will only go to the correct person (if addressed correctly)
- Fast transmission times
- Attachments can be downloaded and edited
- Easier to send large documents

Disadvantages

- Can be slow turnaround times
- Some systems have limits to size of attachments
- Addresses more difficult to remember than phone numbers
- Description of how phishing can occur
- Description of how viruses can be transmitted

Bulletin boards

Advantages

- You don't need an ISP
- Messages can be moderated
- Automatically creates an archive

Disadvantages

- Lack of privacy (every member of the group can see every message)
- In older systems only one person can be online at one time
- Doesn't alert you to incoming messages
- One mark available for reasoned conclusion

[8]
